## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1, 3-13 and 15-23 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art of record teaches a noise reduction apparatus which includes a circuit for generating a stereo sum signal and a stereo differential signal. However, regarding claims 1 and 15, the prior art of record does not fairly teach or suggest in combination with all of the claimed limitations, the stereo to mono blending based on a masking effect wherein noise is included in the stereo signal as a probe signal and an audio component of the audio signal as the mask signal. Therefore, the claimed invention is neither anticipated nor rendered obvious over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
